

Welcome to Social Studies!

I'm really excited to be your child's Social Studies teacher. In Social Studies, we will be studying the geography, history, government, economics, and culture of the United States, both past and present. Social Studies projects (travel brochures, powerpoints, Internet scavenger hunts, virtual tours, etc...) will also be done throughout the year to integrate computer activities. These projects will be done in class and should not require work at home. **One major assignment however will be learning the States and Capitals.** Students will need your help at home memorizing these. A note will be sent home later explaining more about this.
